The SuperJet is a stand-up type personal watercraft (PWC) made by Yamaha Motor Corporation. Part of Yamaha's WaveRunner line of watercraft, it was introduced in 1990 and has become one of the most successful stand-up personal watercraft ever made. All SuperJets, including the engine, are hand-built in Japan. Credit for the design is given to Clayton Jacobson II.

The WaveBlaster is a personal water craft (PWC) made by Yamaha Motor Corporation. Part of their WaveRunner line of watercraft, the Yamaha WaveBlaster 700 (Marine Jet 700TZ) made its debut in 1993. Although technically a runabout style PWC the blaster is more closely related to the SuperJet.. Yamaha's design philosophy for the Blaster was simplicity over comfort.

Protect Your Most Valuable Asset-Your IP Your company's intellectual property is its most important asset. If it's not properly protected, your ideas could be stolen, your products could be copied and you could lose your business. Safeguard your IP with this legal advice from the country's most well-respected IP law firm. Experts in patents, trademarks, copyrights and other protection methods reveal their professional strategies for protecting ideas and avoiding devastating lawsuits. Plus, the enclosed CD gets you started preparing your filings for the U.S. Patent and Trademark Office. Learn how to: Choose the best protection strategy for your business-patents, trademarks or copyrights-and prepare filings for each one Identify your IP and look for prior art Avoid unintentionally infringing on the IP rights of other companies and prevent costly litigation Steer clear of the most common IP traps Use nondisclosure agreements, employee agreements and other protective measures Implement patent strategies into your business plan as a revenue source or to gain a foothold in the market Ensure that your ideas are protected and promote your business' success with these valuable IP strategies. Sample documents include: USPTO Selected Patent Fee Schedule Declaration for Utility or Design Patent Application Form USPTO Trademark Search Form Madrid Protocol Schedule of Fees Term of Copyright Outline Form TX, for a Nondramatic Literary Work Form VA, for a Work of the Visual Arts Form SR, for a Sound Recording Form PA, for a Work of Performing Arts Form SE, for a Serial Copyright Fee Schedule For more than 30 years, Entrepreneur has provided the most trusted business advice available to business owners. Our legal guides continue that tradition by offering current and cost-effective legal advice so you can resolve the business and legal issues you face on a daily basis. We also help you identify when it's in your best interest to seek the personalized advice and services of a practicing lawyer.

From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent—and loud—fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it—personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.

Godzilla Stuffed into a Briefcase Columbus takes a vacation to The Bahamas, and discovers the area to be a fun place. He tells all his other adventurous friends about it, and they decide they all need vacations, too. Soon everybody in The Old Country is loading up enough beer to make the trip and sailing to The Bahamas. Hysterical events have surprised us, inventions have made us more comfortable, and recreational pursuits have all but dominated our lives. The story of America is told in a pair of Jekyll & Hyde Timelines. You will meet the good doctor inside. His mean, ugly brother will arrive in 2008. This is a lot more than a pop culture trivia book, although no simpler phrase describes it. Ten timelines tell the story of America's development from the arrival of Columbus to the homeruns of Barry Bonds and the movie release of The Da Vinci Code. The story is separated into ten topics: events, comforts, cars, toys, movies, television, music, nerds, sports, and gossip. Like any competent trivia book, there is a test at the end, but this tale is about the quest, not the grail. This is a capsule history of the things that have defined us, and Godzilla doesn't like being so tightly restrained.
