For anyone with an interest in, or who is thinking of buying, one of the already classic Jaguar XK sports cars from the 1996 to 2005 period, this Essential Buyer's Guide is a vital requirement. All the models are covered, from the early 4.0-litre models with the infamous Nikasil engines, through to the very last and highly sophisticated 4.2-litre S, with mention of the special editions available in selected markets. All models are looked at in detail, and analysed for their strengths and weaknesses to provide the best possible advice on what to look for and how to buy the best car you can afford. A handy pocket-sized guide, that will always be at your side for constant reference.

The Jaguar XK8 was launched to great acclaim in 1996 as the successor to the XJS, and the model range has been built on ever since. With styling cues taken from the E-type and the XJ220 supercar, and powered by a new 4.0-litre V8 engine, the XK8 found instant success on both sides of the Atlantic. Nearly 10 years after its launch, the styling remains virtually

unchanged, which says a lot for the original concept. This fascinating, all-color book is essential reading for all XK8 owners and enthusiasts.

This book tells the story of how John Egan gradually overcame the odds and, piece by piece, rebuilt this great company, winning over the workforce, the overseas dealers and, most important of all, the customers. Working with Margaret Thatcher and her Government, Egan and his team of managers overcame every obstacle, every set-back, every challenge. Again and again, it looked impossible. Yet using innovative techniques, intelligence, eloquence, openness, motor racing and much more, they saved this most charismatic company which has created some of the finest and most loved motor cars of all time. It is an amazing story that will appeal equally to car enthusiasts, those in business and readers interested in social history.

It was code-named X100 and it was to be Jaguar's latest sports cars, featuring both coupe and convertible coachwork. It was to have an all-new V8 engine and it was to replace the XJS. It would also ultimately have the most powerful forced-induction engine of any production Jaguar road car and it had a lot riding on its success. It was the XK8 - a sleek, purposeful grand tourer in the Jaguar tradition. Graham Robson, one-time Jaguar apprentice and a motoring historian with several other Jaguar books to his credit, tells the story of one of the twentieth century's most beautiful sports car, from its conception to the end of the line for both it and the factory it was built in.

The new updated and enlarged edition of the only book on the complete Jaguar XK/XKR range of 1996 to 2014. Covering design, development, maintenance, modifications and full model-by-model details, this is the perfect 'handbook' for the XK range.

First offered to the public in 1955 this four-wheel microcar featured a fiberglass two-door, four-seat body with a 247cc two stroke engine that suited the German license concessions. A coupT was introduced in 1957 and two larger engines, 293cc and 392cc, were also available. The company was taken over by BMW in 1966. This is a book of contemporary road tests, specification and technical data, new model introductions, driver's impressions. Models covered include: saloon, coupT, TS 300, 293, 400, T600, ISAR 35, TS 400, T 700, Dart, Estate.

Between 1953 and 1980 the Triumph competitions department produced more than 150 'works' competition cars for race and rally. These included TR2, TR3 and TR3A, the TR3S, TRS and Conrero race cars, Herald and Vitesse, TR4, 2000, Spitfire and GT6R, 2.5 PI, Dolomite and Sprint, TR7 and TR7 V8. In addition they prepared Standard Eight, Ten, Pennant, and Phase III Vanguard for competition. Viewed overall, what stands out as the remarkable feature of the work of the department was that they achieved such a degree of success with relatively ordinary production cars, from 803cc saloons upwards. Author Graham Robson was manager of the Standard-Triumph competitions department in the early 1960s and himself supervised the development and

management of the works TR4s, Spitfires and 2000s. Here he provides information on each and every one of the works cars of the whole 1953-80 period, with details of their specifications, entries, drivers and careers, accompanied in nearly all cases by archive photographs. In addition there is specially commissioned colour photography of important surviving examples.

The books in the Everyday Modifications series from Crowood are designed to guide classic car owners through the workshop skills needed to make their cars easier to use and enjoy. MG expert Roger Parker gives his advice on maintaining and modifying MGB, GT and GTV8 cars, with some additional reference to the MGC and MG RV8 models. With safety information throughout, the book covers: regulations, insurance and market value for all models; routine maintenance; body and interior changes; brakes, suspension and steering; engine improvements for the original 1798cc B-series engine and other engine alternatives and finally, installing and updating electrical equipment and lighting. A practical and instructional new guide to classic car modifications and maintenance for MG enthusiasts, illustrated with over 350 colour photographs and case studies.

A renowned Jaguar expert offers a comprehensive historical review of the highly collectable XJS series of coupes, cabriolets and convertibles with particular emphasis on quality evaluation, maintenance and upgrades. Jaguar XJS takes the reader through the 20-year history of a model series which, after a lukewarm reception in 1975 by Jaguar enthusiasts
