A score of 215 on the NWEA MAP Reading is not equivalent to a score of 215 on the NWEA MAP Math. Unlike many standardized tests, a student's RIT score should increase each year. If a student scores a 195 on the NWEA MAP Reading then one should expect the student to earn a higher score during the following term or year.

Understanding NWEA MAP (RIT) Scores - Resources by HEROES

But because MAP adapts to a student's current achievement level, MAP scores are as precise as they can be, and far more precise than fixed form tests of similar length. Understanding student's observed scores, and what the standard errors tell us about the observed scores, can help us to set more reasonable goals and draw more valid conclusions about students' performance and growth in ...

Measurement and Standard Error - NWEA Home

When a student completes an NWEA MAP Growth assessment, he or she receives a series of RIT scores as a result. So, what is a "RIT" and what do the scores mean? "RIT" is an abbreviation for "Rausch Unit." The difficulty and complexity of each MAP assessment question is measured using the RIT scale. A student's RIT score indicates the level at which the student was answering ...

RIT Scores - For the Teachers

When students finish their MAP Growth test, they receive a number called a RIT score for each area they are tested in (reading, language usage, math, or science). This score represents a student's achievement level at any given moment and helps measure their academic growth over time. The RIT scale is a stable scale, like feet and inches, that accurately measures student performance ...

How can I explain RIT scores to students and pa... | NWEA ...

RIT scores generally range between 140 and 300. In third grade, students usually score anywhere between 140 and 190, and in higher grade levels they may progress to a score between 240 and 300. Improve Your Child's NWEA MAP Scores with TestPrep-Online!

NWEA MAP Test Scores - TestPrep-Online

MAP® Growth™ measures student performance with our RIT scale—the most stable, mature scale in the industry. Like centimeters on a ruler, it measures in equal intervals, regardless of a student's grade or performance—and it remains stable over time.

NWEA: Fair, accurate results thanks to a best-in-class scale

"Equal interval" means that the difference between scores is the same regardless of whether a student is at the top, bottom, or middle of the RIT scale. "Stable" means that the scores on the same scale from different students, or from the same students at different times, can be directly compared, even though different sets of test items are administered. A RIT score also has the same meaning ...

What is the RIT scale? | NWEA Connection

tional stages of the school year. For achievement status norms, a student's Rasch Unit (RIT) score is associated with a percentile that shows how well the student performed on a test compared to student peers in the norming group. The relative evaluation of a student's growth from one period to another (e.g., from fall to spring) is provided by growth norms. MAP Growth norms are ...

NWEA 2020 MAP Growth

2 2020 NWEA MAP Growth normative data. Student achievement norms The norms in the tables below have a very straightforward interpretation. For example, in the achievement norms for reading, grade 2 students in the fall had a mean score of 172.35 and a standard deviation of 15.19. To get a sense of how much variation there was, the SD of 15.19 can be subtracted from the mean and added to the ...

2020 NWEA MAP Growth normative data overview

NWEA Community Manager Not all MAP Growth K-2 test questions have audio for specific sections; for example, a question may have audio for directions, but not for the reading passage. The student will know there is audio for an item because there will be a speaker icon on the screen for parts of the item that have student-initiated audio replay (see image below). If there is no audio, or if the ...
