J. Fred Weston provides managers and executives with the information they need to understand essential accounting principles, from vocabulary and financial statements to cash flow and valuation. Covering balance sheets, income statements, reporting measures, and even essential ratios, this practical, in-depth book provides a one-stop, reference for all aspects of finance and accounting, and will help managers take essential steps toward making informed decisions based on the numbers they face every business day.

A guide for businesspeople covers such essentials as financial statements, balance sheets, liabilities, assets, and income statements.

Finance is key to every business organisation as well as outside. This book makes sense of the finance world from a non-finance perspective. It introduces, explains and demystifies essential ideas of business finance to those who do not have financial background or training. Lucid, accessible, yet comprehensive, the book delineates the financial workings of businesses and offers an overview of corporate finance in the global context. The volume:
