Aquifer storage and recovery

– Wikipedia

Aquifer storage and recovery
(ASR) is a water resources
management technique for

File Type PDF Aquifer Storage And Recovery In

actively storing water underground during wet periods for recovery when needed, usually during dry periods. The timeframe can range from months to decades.

File Type PDF Aquifer Storage And Recovery In **Aquifer Storage and Recovery**

- USGS

Aquifer recharge (AR) and
aquifer storage and recovery
(ASR) are manmade processes
or natural processes
enhanced by humans that
convey water underground.

File Type PDF Aquifer Storage And Recovery In

The processes replenish ground water stored in aquifers for beneficial purposes. Although AR and ASR are often used interchangeably, they are separate processes with distinct objectives.
