Big data challenges are numerous: Big data projects have become a normal part of doing business — but that doesn't mean that big data is easy. According to the NewVantage Partners Big Data Executive Survey 2017, 95 percent of the Fortune 1000 business leaders surveyed said that their firms had undertaken a big data project in the last five years. However, less than half (48.4 percent) said that their big data initiatives had achieved measurable results.
