UCSD Biochemical Genetics and Metabolomics Laboratory. We are a CLIA/CAP certified laboratory performing global metabolomics research, and clinical assays geared towards inherited metabolic disease. Note re: Coronavirus CoVid19 (SARS-CoV-2): Posted 19-Mar-2020. Our laboratory is free-standing and has implemented measures to keep our workers safe, so we plan to remain open through this pandemic, to provide essential services for medical care of patients with inherited metabolic disease.

About this book. About this book. Basic Methods for the Biochemical Lab elucidates proven lab procedures and practical hints for research in analytical and preparative biochemistry, as well as summarizing key data in numerous tables. To further emphasize the practical aspects and to minimize the text, theoretical introductions into the methods are mostly omitted.
