~~"This book is an effort to shed light on the truth. . . . To the extent that our leaders embody aspects of who we are as a people, studying how each president has participated in our nation’s complicated and often shameful treatment of black people is as good a place as any to start.” – Margaret Kimberley from the Preface
“Margaret Kimberley gives us an intellectual gem of prophetic fire about all the U.S. presidents and their deep roots in the vicious legacy of white supremacy and predatory capitalism. Such truths seem more than most Americans can bear, though we ignore her words at our own peril!” – Cornel West, author of Race Matters
PREJUDICIAL is a concise, authoritative exploration of America’s relationship with race and Black Americans through the lens of the presidents who have been elected to represent all of its people. Throughout the history of the United States, numerous presidents have left their legacies as slaveholders, bigots, and inciters of racial violence, but were the ones generally regarded as more sympathetic to the plight and interests of black Americans—such as Lincoln, FDR, and Clinton—really much better? And what of all the presidents whose relationship with black America is not even considered in the pages of most history books? Over the course of 45 chapters—one for each president—Margaret Kimberley enlightens and informs readers about the attitudes and actions of the highest elected official in the country. By casting sunlight on an aspect of American history that is largely overlooked, Prejudential aims to increase awareness in a manner that will facilitate discussion and understanding.~~

~~The stunning new novel from the highly-acclaimed author of The Panopticon It's November of 2020, and the world is freezing over. Each day colder than the last. There's snow in Israel, the Thames is overflowing, and an iceberg separated from the Fjords in Norway is expected to drift just off the coast of Scotland. As ice water melts into the Atlantic, frenzied London residents evacuate by the thousands for warmer temperatures down south. But not Dylan. Grieving and ready to build life anew, he heads north to bury his mother's and grandmother's ashes on the Scottish islands where they once lived. Hundreds of miles away, twelve-year-old Estella and her survivalist mother, Constance, scrape by in the snowy, mountainous Highlands, preparing for a record-breaking winter. Living out of a caravan, they spend their days digging through landfills, searching for anything with restorative and trading value. When Dylan arrives in their caravan park in the middle of the night, life changes course for Estella and Constance. Though the weather worsens, his presence brings a new light to daily life, and when the ultimate disaster finally strikes, they'll all be ready. Written in incandescent, dazzling prose, The Sunlight Pilgrims is a visionary story of courage and resilience in the midst of nature's most violent hour; by turns an homage to the portentous beauty of our natural world, and to just how strong we can be, if the will and the hope is there, to survive its worst. – NPR “Best Books of 2016” – Family Matters, Identity & Culture, Science Fiction & Fantasy, and Tales from Around the World~~

~~Acclaimed Caldecott Artist Molly Bang teams up with award-winning M.I.T. professor Penny Chisholm to present the fascinating, timely story of fossil fuels. What are fossil fuels, and how did they come to exist? This engaging, stunning book explains how coal, oil, and gas are really "buried sunlight," trapped beneath the surface of our planet for millions and millions of years. Now, in a very short time, we are digging them up and burning them, changing the carbon balance of our planet's air and water. What does this mean, and what should we do about it? Using simple language and breathtaking paintings, Bang and Chisholm present a clear, concise explanation of the fossil-fuel energy cycle that began with the sun and now runs most of our transportation and energy use in our world. Readers will be mesmerized by this engaging fourth book in the award-winning Sunlight Series by Bang and Chisholm.~~

~~BLACK BOOK is just another poetic chapter in the life of Mose Xavier Hardin Jr. I have changed and grown over the years overcoming depression, loneliness and a great deal of pain. I have managed to find love again in my 50s. I have managed to survive countless trials with racism and discrimination. I have managed to survive prostate cancer. I have learned to pick my battles and my friends more carefully. I have learned I still have so much more to say!~~

~~A new edition of the classic New York Times bestseller edited by Toni Morrison, offering an encyclopedic look at the black experience in America from 1619 through the 1940s with the original cover restored. “I am so pleased the book is alive again. I still think there is no other work that tells and visualizes a story of such misery with seriousness, humor, grace and triumph.”—Toni Morrison
Seventeenth-century sketches of Africans as they appeared to marauding European traders. Nineteenth-century slave auction notices. Twentieth-century sheet music for work songs and freedom chants. Photographs of war heroes, regal in uniform. Antebellum reward posters for capturing runaway slaves. An 1856 article titled “A Visit to the Slave Mother Who Killed Her Child.” In 1974, Middleton A. Harris and Toni Morrison led a team of gifted, passionate collectors in compiling these images and nearly five hundred others into one sensational narrative of the black experience in America—The Black Book. Now in a newly restored hardcover edition, The Black Book remains a breathtaking testament to the legendary wisdom, strength, and perseverance of black men and women intent on freedom. Prominent collectors Morris Levitt, Roger Furman, and Ernest Smith joined Harris and Morrison (then a Random House editor, ultimately a two-time Pulitzer Prize-winning Nobel Laureate) to spend months studying, laughing at, and crying over these materials—transcripts from fugitive slaves’ trials and proclamations by Frederick Douglass and celebrated abolitionists, as well as chilling images of cross burnings and lynchings, patents registered by black inventors throughout the early twentieth century, and vibrant posters from “Black Hollywood” films of the 1930s and 1940s. Indeed, it was an article she found while researching this project that provided the inspiration for Morrison’s masterpiece, Beloved. A labor of love and a vital link to the richness and diversity of African American history and culture, The Black Book honors the past, reminding us where our nation has been, and gives flight to our hopes for what is yet to come. Beautifully and faithfully presented and featuring a foreword and original poem by Toni Morrison, The Black Book remains a timeless landmark work.~~
