Biology for AP[®] courses covers the scope and sequence requirements of a typical two-semester Advanced Placement[®] biology course. The text provides comprehensive coverage of foundational research and core biology concepts through an evolutionary lens. Biology for AP[®] Courses was designed to meet and exceed the requirements of the College Board's AP[®] Biology framework while allowing significant flexibility for instructors. Each section of the book includes an introduction based on the AP[®] curriculum and includes rich features that engage students in scientific practice and AP[®] test preparation; it also highlights careers and research opportunities in biological sciences.

The Review Guide for NLN-RN Pre-Entrance Exam, Third Edition provides an overview of the math, science, and reading comprehension skills necessary for admission to AD and BS programs in nursing. This best-selling study guide includes review questions and practice exams in each of the three test areas: math, science, and reading comprehension. Also includes helpful tips for test preparation and for becoming a more effective learner and test taker.

This Student Notebook and Study Guide, the ideal companion to Bruce Wingerd's *The Human Body*, reinvents the traditional study guide by giving students a tool to help grasp information in class and reinforce learning outside of class. Too often, students struggle to both learn the concepts presented and simultaneously record crucial information. The Student Notebook and Study Guide provides a structure for recording in-class material that parallels the text's concept presentation, and includes supplemental questions and activities for assignment outside of the classroom. A complete answer guide for both the
