Cisco 7942 Manuals | ManualsLib  
I have a third part SIP server (Brekeke SIP Server) And I need to register Cisco IP Phone 7942 with this SIP server. What are the best procedure to do that ? I am using SIP load "SIP42.9-1-1SR1S" and attached is my SEP file, but it is giving me "Registering" the whole time, and it is giving (X) mark on the phone symbol at the line.

7942 Conversion to SIP - Cisco Community  
Smart Ports are looking for an IP Phone. I have tried deleting the phones from CCA and re adding them, no go. I've tried using a static IP on the phones, didn't work. If I plug a PC into the output on the phone it gets an IP and internet and is assigned to the appropriate VLAN. No other phone on this system are experiencing this problem.

7942 Not Able to Configure/Register IP - Cisco Community  
Depending on the configuration, the 7942G Cisco phone supports either one or two lines. Just check the right side of the display screen to find out how many lines you have. Also, note that each of your phone lines can support several calls, but only one can be active at a time. Other incoming calls will be on hold when there `s an active call.

Cisco 7942 Manual User Guide for Cisco 7942 IP Phone Users  
The IP Phone firmware is SIP, I need the Cisco IP Phone 794x and 796x to take the configuration from the TFTP server (actually it takes the xml files) but already the Phone has old configuration and still it is trying to register using the old configuration.
