Modern physics tells us that we're dreaming the world into being with every thought. Courageous Dreaming tells us how to dream our world with power and grace. The ancient shamans of the Americas understood that we're not only creating our experience of the world, but are dreaming up the very nature of reality itself—that is, “life is but a dream.” When you don't dream your life, you have to settle for the nightmare being dreamed by others. This book shows how to wake up from the collective nightmare and begin to dream a life of courage and grace, a sacred dream that shamans throughout time have known and served. Alberto Villoldo reveals ancient wisdom teachings that explain how to birth reality from the invisible matrix of creation; and reveals how we can interact with this matrix to dream a life of peace, health, and abundance. He shows us that courage is all that is required to create the joy we desire!

Dreaming of Cupcakes follows a woman's yearlong journey to heal a lifelong addiction to food, utilizing the shamanic medicine traditions she was trained in, her inner resources, and her community of support.

Roadmap for Life Paradigm: A Paradigm for the Process of Change by Thunderheart In 1992 Thunderheart was working one night when the voice of Yeshua Ben Joseph (Jesus of Nazareth) spoke to him to read a section in the Bible. Through life experiences, searching the truth, he came to understand what Yeshua wanted him to understand. The author's original intention was to learn about business, but instead he ended up learning a paradigm process of change that everyone, regardless of their background in life, goes through. He tested this process in his own life, in his doctoral studies, and in examining how other people live. He found

that he could fit any idea, concept, or other change concepts that other authors wrote about into the Roadmap for Life Paradigm. He came to the realization that if he dies tomorrow and begins life again as a child, he would go through this Roadmap for Life Paradigm process all over again! That is how powerful this teaching is! His inner Being pushed the drive to know the truth to the uttermost limits and to seek understanding that enabled him to develop a cohesive means of teaching this paradigm. Roadmap for Life Paradigm delves into the self-realization of the processes of change that a person goes through in their lifetime. It brings from the subconscious the process already at work to conscious awareness so that the reader can live an intentional life that leads toward a nonjudgmental egoless way of knowing, understanding, and remembering.

Suppose life could be taken at more than face value. Imagine seeing the individual events of our waking world metaphorically—like symbols in a dream. It is the idea that there is essentially no difference between the dream world and the world of our waking lives.

Focusing on techniques of spiritual development and awareness of the presence of spirit in ordinary life, Robbins challenges the reader to move beyond spiritual blockages and obstacles and raise the vibrational frequencies that bring us to greater enlightenment. This reduces negative emotions such as despair, meaninglessness, and unhappiness. Robbins wants to help us increase our pro-social activity thereby contributing to a more open-minded service towards others. In this book he shows how to use effective techniques for practical and spiritual change while following a path of heart.

In the past few years there has been an increase in the use of the word intuitive. This increase has been a direct result of the way we describe the intelligent functionality of technology, such as a smart phone or an application. In addition many business people, such as Apple creator Steve Jobs and Virgin tycoon Richard Branson, have credited their success to 'ideas through intuition'. Intuition is no longer seen as something woolly but as a valuable life skill. We have also seen a rise in the popularity of books that talk of 'silencing the mind', revealing the importance of being without ego. *You Do Know* blends these two subjects together by explaining how to make decisions without ego, therefore making decisions without fear. Many people don't know how to trust their intuition. In *You Do Know*, Becky Walsh explains that this is because until now people thought there was only one kind of intuition. Becky has made a revolutionary discovery: that there are two forms of intuition. One form works through ego and the other through love. To back up this realisation she has turned to neuroscience, psychology and spiritual teaching to draw all the pieces together. In addition, Becky explains how interactions without ego-judgement affect us positively in friendship, business, relationships, family and community. This shift will change our world dramatically from both a personal and global perspective, as we realise that intuition is the key to the shift in consciousness that humanity needs to fix the problems we currently face.

2013: *Beginning an Era of Hope and Harmony* brings together important information and perspectives about the end of the Mayan Long-count calendar, and how it relates to the astronomy, scientific discoveries, and present-day signs of the coming transition from the end of the Mayan Fourth Sun into the new world era of their Fifth sun. Writers and teachers from many fields are brought together to show how

we can help in this process involving the evolution of consciousness, and how our thoughts and attitudes will greatly affect how this world's age ends, and how the new era begins. 2013 predicts with credible proof that this new-world age, the Mayan Fifth Sun, will begin a Golden era of peace and harmony.
