Homer The Essential Homer [EBOOK]

Frankenstein's Console: The PS2's utterly essential rotating logo ... Inevitably it's going to look a bit like that car Homer Simpson designed, and equally inevitably it's going to say Giga Power ...

Selections from both Iliad and Odyssey, made with an eye for those episodes that figure most prominently in the study of mythology.

Selections from both Iliad and Odyssey, made with an eye for those episodes that figure most prominently in the study of mythology.

Selections from both Iliad and Odyssey, made with an eye for those episodes that figure most prominently in the study of mythology.

This generous abridgement of Stanley Lombardo's translation of the "Odyssey" offers more than half of the epic, including all of its best-known episodes and finest poetry, while providing concise summaries for omitted books and passages. Sheila Murnaghan's Introduction, a shortened version of her essay for the unabridged edition, is ideal for readers new to this remarkable tale of the homecoming of Odysseus.

Renowned Homer scholar Barry B. Powell has already given the world powerful new translations of the Iliad and the Odyssey. Now his Homer's Iliad and Odyssey: The Essential Books brings together his translations of the most important books and passages from these two great poems in one handy volume. Accessible, poetic, and accurate, Barry Powell's translations are an excellent fit for today's students. With swift, transparent language that rings both ancient and modern, Powell exposes students to all of the rage, pleasure, pathos, cunning, and humor that are Homer's Iliad and Odyssey. Both the translations and the introductions are informed by the best recent scholarship.

FEATURES * Uses well-modulated verse and accurate English that is contemporary but never without dignity * Powell's introduction sets the poems in their philological, mythological, and historical contexts * Features unique on-page notes, facilitating students' engagement with the poems * Embedded illustrations accompanied by extensive captions provide Greek and Roman visual sources for key passages * Maps provide geographic context for the poems' many place names * Audio recordings (read by Powell) of important passages are available on the book's Companion Website and indicated in the text margin by an icon

While preserving the basic narrative of the Iliad, this selection also highlights the epic's high poetic moments and essential mythological content, and will prove especially useful in surveys of world literature.

One of the oldest extant works of Western literature, the Iliad is a timeless epic poem of great warriors trapped between their own heroic pride and the arbitrary, often vicious decisions of fate and the gods. Renowned scholar and acclaimed translator Peter Green captures the Iliad in all its surging thunder for a new generation of readers. Featuring an enticingly personal introduction, a detailed synopsis of each book, a wide-ranging glossary, and explanatory notes for the few puzzling in-text items, the book also includes a select bibliography for those who want to learn more about Homer and the Greek epic. This landmark translation—specifically designed, like the oral original, to be read aloud—will soon be required reading for every student of Greek antiquity, and the great traditions of history and literature to which it gave birth.

Ten new essays, from a distinguished cast of (mainly) North American scholars, approach Homer with insights gained from the modern disciplines of psychology and anthropology, narratology, oral theory and cognitive research. But the contributors also attend to ancient modes of approach to the Homeric poems: linguistic and narratological, ethical and psychological. The volume focuses both on literary technique in the poems, and on the portrayal of characters and peoples, central and marginal.

"Adam Nicolson writes popular books as popular books used to be, a breeze rather than a scholarly sweat, but humanely erudite, elegantly written, passionately felt...and his excitement is contagious."—James Wood, *The New Yorker* Adam Nicolson sees the Iliad and the Odyssey as the foundation myths of Greek—and our—consciousness, collapsing the passage of 4,000 years and making the distant past of the Mediterranean world as immediate to us as the events of our own time. *Why Homer Matters* is a magical journey of discovery across wide stretches of the past, sewn together by the poems themselves and their metaphors of life and trouble. Homer's poems occupy, as Adam Nicolson writes "a third space" in the way we relate to the past: not as memory, which lasts no more than three generations, nor as the objective accounts of history, but as epic, invented after memory but before history, poetry which aims "to bind the wounds that time inflicts." The Homeric poems are among the oldest stories we have, drawing on deep roots in the Eurasian steppes beyond the Black Sea, but emerging at a time around 2000 B.C. when the people who would become the Greeks came south and both clashed and fused with the more sophisticated inhabitants of the Eastern Mediterranean. The poems, which ask the eternal questions about the individual and the community, honor and service, love and war, tell us how we became who we are.
