This is the first book-length English-language study of Holland's legendary insurrectional movement. In an introduction and eight chapters, Richard Kempton narrates the rise and fall of Provo from early Dutch 'Happenings' staged in 1962 through to the so-called 'Death of Provo' in 1967, including Robert Jasper Grootveld's anarchist anti-cancer campaigns, the riots against Princess Beatrix's marriage to an ex-Nazi, and the famous White Bicycle program. Then, in seven appendices, he comments on parallel contemporary and near-contemporary movements, including Dada and Situationism; studies Amsterdam's previous anarchist traditions; chronicles the spread of Provo through the Netherlands and the development of the Kabouter(Gnome) party; and offers an existentialist critique of Provo and other anarchist movements of the '60s. This unique book is based on extensive primary research and includes a selective bibliography of the Dutch-language sources.

A lighthearted chronicle of how foods have transformed human culture throughout the ages traces the barley- and wheat-driven early civilizations of the near East through the corn and potato industries in America.

Translated from original Marathi by Indira Kher, this work is a verse composition containing the known facts about Shri Sai Baba's life at Shirdi, and also his teachings seeks to meet a long-felt need. This is the Bible of Sai devotes in every sense of the term. In it's veracity, sanctity, faith and devotion that it inspires and the deep satisfaction, a sense of fulfilment that it brings to the devotee, it has no equal. Its sanctity derives from the fact that its idea was conceived during Baba's lifetime and with his blessings and express permission. For those unaware of Shri Sai Satcharita it is necessary to add that in the original it runs into 53 chapters and contains over 9,000 verses. Every chapter has a judicious mixture of philosophy, stories and anecdotes along with the Baba's teachings.

In the 25 years since its original publication, Space and Place has not only established the discipline of human geography, but it has proven influential in such diverse fields as theater, literature, anthropology, psychology, and theology. Eminent geographer Yi-Fu Tuan considers the ways in which people feel and think about space, how they form attachments to home, neighborhood, and nation, and how feelings about space and place are affected by the sense of time. He suggests that place is security and space is freedom: we are attached to the one and long for the other. Whether he is considering sacred veraus "biased" space, mythical space and place, time in experiential space, or cultural attachments to space, Tuan's analysis is thoughtful and insightful.

'Armed with wit, insight, and truly astonishing research, Falk utterly demolishes the notion of the enlightened guru who can lead devotees to nirvana.--John Horgan, author of "Rational Mysticism.'

The unexpected discovery in 2012 of a completed manuscript of Claude McKay's final novel was hailed by Henry Louis Gates, Jr. as 'a major event which dramatically expands the canon of novels written by Harlem Renaissance writers'. Building on the already extraordinary legacy of McKay's life and work, this colourful, dramatic novel centres on the effort by Harlem intelligentsia to organize support for the liberation of Mussolini-occupied Ethiopia, a crucial but largely forgotten event in American history. At once a penetrating satire of political machinations in Depression-era Harlem and a far-reaching story of global intrigue and romance, Amiable with Big Teeth plunges into the concerns, anxieties, hopes and dreams of African-Americans at a moment of crisis for the soul of Harlem.
