Follow That Map!: A First Book of Mapping Skills by Scot ...
In Follow That Map! A First Look at Mapping Skills, a group of five diverse children search for their pets and take an exciting trip through the neighborhood, city and country, around the world and into space in an attempt to locate their missing dog and cat. This book presents key mapping concepts and serves as an introduction to maps.

Follow That Map! A First Look at Mapping Skills
Next, the youngsters explore the park, and the map shows how to follow a route. They continue their search in the city, the countryside, and eventually across the world and the solar system. On the way, a different type of map/for example, weather, topographical, and treasure/is featured on each spread and explained. The idea works well for the first few pages but falls apart as the ...
