When Chinese women bound their daughters' feet, many consequences ensued, some beyond the imagination of the binders and the bound. The most obvious of these consequences was to impress upon a small child's body and mind that girls differed from boys, thus reproducing gender hierarchy. What is not obvious is why Chinese society should have evolved such a radical method of gender-marking. Gendering is not simply preparation for reproduction, rather its primary significance lies in preparing children for their places in the division of labor of a particular political economy. Drawing on extensive fieldwork and interviews with almost 5,000 women, this book examines footbinding as Sichuan women remember it from the final years of the empire and the troubled times before the 1949 revolution. It focuses on two key questions: what motivated parents to maintain this custom, and how significant was girls' work in China's final pre-industrial century? In answering these questions, Hill Gates shows how footbinding was a form of labor discipline in the first half of the twentieth century in China, when it was a key institution in a now much-altered political economy. Countering the widely held views surrounding the sexual attractiveness of bound feet to Chinese men, footbinding as an ethnic boundary marker, its role in female hypergamy, and its connection to state imperatives, this book instead presents a compelling argument that footbinding was in fact a crucial means of disciplining of little girls to lives of early and unremitting labor. This vivid and fascinating study will be of huge interest to students and scholars working across a wide range of fields including Chinese history, oral history, anthropology and gender studies.

This instructional guide for literature provides engaging lesson plans and activities for students as they read Bound, a critically acclaimed YA fiction novel that takes place in ancient China and puts a spin on the classic Cinderella fairy tale. This valuable resource guides teachers with ways to add rigor with complex literature. Text-dependent questions help students analyze the text with higher-order thinking skills, with lessons focused on story elements, vocabulary, and more. Close reading activities throughout the literature units encourage students to use textual evidence as they revisit passages to respond more critically. With various methods of assessing comprehension, this instructional guide offers strategies for cross-curricular activities as students build a greater understanding of this great literary work.

Previous studies of the practice of footbinding in imperial China have theorized that it expressed ethnic identity or that it served an economic function. By analyzing the popularity of footbinding in different places and times, Footbinding as Fashion investigates the claim that early Qing (1644-1911) attempts by Manchu rulers to ban footbinding made it a symbol of anti-Manchu sentiment and Han identity and led to the spread of the practice throughout all levels of society. Detailed case studies of Taiwan, Hebei, and Liaoning provinces exploit rich bodies of previously neglected ethnographic reports, economic surveys, and rare censuses of footbinding to challenge the significance of sedentary female labor and ethnic rivalries as factors leading to the hegemony of the footbinding fashion. The study concludes that, independently of identity politics and economic factors, variations in local status hierarchies and elite culture coupled with status competition and fear of ridicule for not binding girls' feet best explain how a culturally arbitrary fashion such as footbinding could attain hegemonic status.

The Assessment Guide for TIME FOR KIDS®: Nonfiction Readers offers an exciting mix of support materials for science, mathematics, and social studies lessons plans. Developed by one of the leading experts in reading research - Timothy Rasinski - this Assessment Guide provides researched-based methods to boost student reading skills. The Assessment Guide features fluency and writing rubrics, comprehension assignments for each reader, as well as teacher best practices.

"Challenge students to use their critical and creative thinking skills to solve puzzles, riddles, mazes, and more!"--Cover back.

Lily is the daughter of a humble farmer, and to her family she is just another expensive mouth to feed. Then the local matchmaker delivers startling news: if Lily's feet are bound properly, they will be flawless. In nineteenth-century China, where a woman's eligibility is judged by the shape and size of her feet, this is extraordinary good luck. Lily now has the power to make a good marriage and change the fortunes of her family. To prepare for her new life, she must undergo the agonies of footbinding, learn nu shu, the famed secret women's writing, and make a very special friend, Snow Flower. But a bitter reversal of fortune is about to change everything.

Third Sister in the Tao family, Ailin has watched her two older sisters go through the painful process of having their feet bound. In China in 1911, all the women of good families follow this ancient tradition. But Ailin loves to run away from her governess and play games with her male cousins. Knowing she will never run again once her feet are bound, Ailin rebels and refuses to follow this torturous tradition. As a result, however, the family of her intended husband breaks their marriage agreement. And as she enters adolescence, Ailin finds that her family is no longer willing to support her. Chinese society leaves few options for a single woman of good family, but with a bold conviction and an indomitable spirit, Ailin is determined to forge her own destiny. Her story is a tribute to all those women whose courage created new options for the generations who came after them.
