Homecare agencies employ trained carers and arrange for them to visit you in your home. You may not always have the same carer visiting your home, though the agency will try to match you with someone suitable. How much do they cost? It costs around £20 an hour for a carer to come to your home, but this will vary depending on where you live.

A care home may be the best option if you or someone you know: is struggling to live alone - even with help from friends, family or paid carers had a needs assessment that suggested a care home is the best choice has a complex medical condition - that needs specialist attention during the day and night

[Care homes - NHS](#)  
Home health care is a wide range of health care services that can be given in your home for an illness or injury. Home health care is usually less expensive, more convenient, and just as effective as care you get in a hospital or skilled nursing facility (SNF). Examples of skilled home health services include: Wound care for pressure sores or a surgical wound

[What's home health care? | Medicare](#)  
Care homes provide accommodation and personal care for people who need extra support in their daily lives. Personal care might include help with eating, washing, dressing, going to the toilet or taking medication. Some care homes also offer social activities such as day trips or outings. Care homes are sometimes referred to as residential homes.

[Care homes | Information and Advice | Age UK](#)  
Health Care Comes Home recommends critical steps to improve health care in the home. The book's recommendations cover the regulation of health care technologies, proper training and preparation for people who provide in-home care, and how existing housing can be modified and new accessible housing can be better designed for residential health care.
