How Change Happens is a new book from Duncan Green which explores the major themes that make change happen in the world. Whether you are an activist, campaigner, development practitioner, lobbyist, entrepreneur, individual or an organisation, it seeks to understand how power and systems shape change, and how you can influence them.

How Change Happens explains why some of the most significant 21 st century shifts happened. By studying the movements behind many important causes—from LGBT marriage equality and tobacco control, to gun rights expansion, acid rain reduction and more, author Leslie Crutchfield explores how society came to celebrate gay weddings and ban smoking in public, and at the same time allow guns to be carried in most U.S. states, and friends won't let each other drive drunk.

How Change Happens contains the accumulated experience of years spent engaged in the field, researching and writing about reducing poverty and combating injustice and, as the author says, trying to, "do justice to the complexity of the world, while still believing there is a story about how it can be changed for the better."

"How Change Happens" has treated me to a large dose of my own medicine! Cass Sunstein has basically stringed together sixteen (count'em) chapters on the multiple facets of the landscape where morals meet needs, paternalism confronts freedom, ethics brush with welfare, transparency with privacy etc.

In writing my book on how change happens, I took an inductive, or "grounded theory," approach to studying social change. I started by making a list of some of the biggest social and environmental changes that have occurred in the U.S., or were U.S.-led, since the turn of the 21st century.
