Central Asia has plenty of oil and gas, but the best way to bring this wealth to market remains a subject of continuous controversy. This paper outlines proposed pipeline projects and serves as a guide to the maze of political, security, and economic issues obstructing hydrocarbons development in the newly independent Caucasus and Central Asian republics.

In this volume Europe's leading modern historians offer new insights into two totalitarian regimes of the twentieth century that have profoundly affected world history?Nazi Germany and the Stalinist Soviet Union. Until now historians have paid more attention to the similarities between these two regimes than to their differences. Stalinism and Nazism explores the difficult relationship between the history and memory of the traumas inflicted by Nazi and Soviet occupation in several Eastern European countries in the twentieth century. The first part of the volume explores the origins, nature, and organization of Hitler's and Stalin's dictatorial power, the manipulation of violence by the state systems, and the comparative power of the dictator's personal will and the encompassing totalitarian system. The second part examines the legacies of the Nazi and Stalinist regimes in Eastern European countries that experienced both. Stalinism and Nazism features the latest critical perspectives on two of the most influential and deadly political regimes in modern history.

Essentials of the Islamic Faith is a selection from some of the speeches M. Fethullah Glen has given to large audiences over a life-time of dedicated service. In these speeches, he explains the principal elements of Islamic belief - belief in the existence and Unity of God; in Resurrection and the Day of Judgment; in Divine Scriptures and other familiar themes of Islamic discourse. What is special and unique about the presentation of them in this book is that the author is constantly aware of the encroachment (and the seductive appeal) of cultural attitudes which are hostile not to Islam only but to any religious and contemplative way of life.

This volume is a major contribution to Jewish as well as to Ottoman, Balkan, Middle Eastern, and North African history. These twenty-eight original essays grew out of an international conference at Brandeis University -- the first ever to be convened specifically on this subject ... The essays focus on many central topics: the structure of the Jewish communities, their organisation and institutions, the scope of their autonomy, and their place in Ottoman society. Other subjects include Sephardic folklore, Jewish-Muslim acculturation, Jewish contributions to Ottoman arts, demographic perspectives of the Jewish communities, problems of immigration and emigration, the modernisation of Ottoman Jewry, and Jewish participation in political life.

This six-volume work, published between 1860 and 1890, contains a selection of documents in Greek which throw light on the history and politics of the Byzantine Empire in the Middle Ages. The editors, Franz Miklosich (1813-91), philosopher, linguist and Slovenian nationalist, and Josef (or Giuseppe) Müller (1823-95), a Greek scholar who also translated many important works by German classical historians into Italian, used as one of their sources the volumes of Greek manuscripts brought back to Vienna by Ogier Ghiselin de Busbecq (1522-92), the Flemish diplomat, herbalist, and travel writer who had acted as Imperial Ambassador to the Sublime Porte. Volume 5 (published in 1887) reveals the efforts of churches and monasteries to maintain their rights and status with regard to the Orthodox hierarchy, and also in the context of political upheaval: the King of Serbia and the Doge of Venice are among those involved.

A dual portrait of controversial religious figure Rabbi Sabbatai Sevi and his Jewish cult traces Sevi's early life and education against a richly detailed backdrop of Jewish community culture, discussing how he acquired an international following despite his conversion to Islam in 1666. Reprint.
