Volumes in Writing Spaces: Readings on Writing offer multiple perspectives on a wide-range of topics about writing, much like the model made famous by Wendy Bishop's [The Subject Is . . .] series. In each chapter, authors present their unique views, insights, and strategies for writing by addressing the undergraduate reader directly. Drawing on their own experiences, these teachers-as-writers invite students to join in the larger conversation about developing nearly every aspect of craft of writing. Consequently, each essay functions as a standalone text that can easily complement other selected readings in writing or writing-intensive courses across the disciplines at any level. Topics in Volume 1 of the series include academic writing, how to interpret writing assignments, motives for writing, rhetorical analysis, revision, invention, writing centers, argumentation, narrative, reflective writing, Wikipedia, patchwriting, collaboration, and genres.

"Over the past few years, Brianna Wiest has gained renown for her deeply moving, philosophical writing. This new compilation of her published work features pieces on why you should pursue purpose over passion, embrace negative thinking, see the wisdom in daily routine, and become aware of the cognitive biases that are creating the way you see your life. Some of these pieces have never been seen; others have been read by millions of people around the world.

Regardless, each will leave you thinking: This idea changed my life."--provided by publisher.

A compelling ode to the essay form and the great essayists themselves, from Montaigne to Woolf to Sontag. Essayism is a book about essays and essayists, a study of melancholy and depression, a love letter to belle-lettrists, and an account of the indispensable lifelines of reading and writing. Brian Dillon's style incorporates diverse features of the essay. By turns agglomerative, associative, digressive, curious, passionate, and dispassionate, his is a branching book of possibilities, seeking consolation and direction from Michel de Montaigne, Virginia Woolf, Roland Barthes, Theodor Adorno, Walter Benjamin, Georges Perec, Elizabeth Hardwick, and Susan Sontag, to name just a few of his influences. Whether he is writing on origins, aphorisms, coherence, vulnerability, anxiety, or a number of other subjects, his command of language, his erudition, and his own personal history serve not so much to illuminate or magnify the subject as to discover it anew through a kaleidoscopic alignment of attention, thought, and feeling, a dazzling and momentary suspension of disparate elements, again and again.

George Orwell set out [to make political writing into an art], and to a wide extent this aim shaped the future of English literature [his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Politics and the English Language, the second in the Orwell's Essays series, Orwell takes aim at the language used in politics, which, he says, [is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind]. In an age where the language used in politics is constantly under the microscope, Orwell's Politics and the English Language is just as relevant today, and gives the reader a vital understanding of the tactics at play. 'A writer who can [and must] be rediscovered with every age.' [Irish Times
