The Third Edition of ANSI/ACCA Manual D is the Air Conditioning Contractors of America procedure for sizing residential duct systems. This procedure uses Manual J (ANSI/ACCA, Eighth Edition) heating and cooling loads to determine space air delivery requirements. This procedure matches duct system resistance (pressure drop) to blower performance (as defined by manufacturer's blower performance tables). This assures that appropriate airflow is delivered to all rooms and spaces; and that system airflow is compatible with the operating range of primary equipment. The capabilities and sensitivities of this procedure are compatible with single-zone systems, and multi-zone (air zoned) systems. The primary equipment can have a multi-speed blower (PSC motor), or a variable-speed blower (ECM or constant torque motor, or a true variable speed motor). Edition Three, Version 2.50 of Manual D (D3) specifically identifies normative requirements, and specifically identifies related informative material.

Flame throwers, spy trees, bird bombs, and Hell Fighters were all a part of World War I, but you won't learn that in your history books! Uncover long-lost secrets of spies like Howard Burnham, "The One-Legged Wonder," and nurse-turned-spy, Edith Cavell. Peek into secret files to learn the truth about the Red Baron and the mysterious Mata Hari. Then learn how to build your own Zeppelin balloon and mix up some invisible ink. It's all part of the true stories from the Top Secret Files: World War I. Take a look if you dare, but be careful! Some secrets are meant to stay hidden . . . Ages 9-12

R to L (Japanese Style). Chinese Go Association Since Sai's disappearance, Hikaru has given up go! Meanwhile, undefeated by his failure to pass the pro test, Isumi plays his heart out in China. His foreign training teaches him unique ways to handle the stress of mental challenges and competition. Upon his return, he asks Hikaru for a rematch! But how good will Hikaru's

game be after such a long break--and without Sai...?

Detective Wallander is haunted by the spectre of a murder he was unable to prevent as a young policeman. Years after the event, the daughter of the murder victim, now a heroin addict, dies of an overdose. A distressed Wallander is assigned to investigate the crash of a light airplane and a detonated armour piercing shell is found in the wreckage. A few days later, two elderly sisters are killed in an explosion in a sewing supplies shop. Traces of an advanced explosive are found in the burnt-out shop and evidence soon mounts to indicate that both events are tied to a showdown between two rival narcotics gangs.

Engineering Drawing From First Principles is a guide to good draughting for students of engineering who need to learn how to produce technically accurate and detailed designs to British and International Standards. Written by Dennis Maguire, an experienced author and City and Guilds chief examiner, this text is designed for use on Further Education and University courses where a basic understanding of draughtsmanship and CAD is necessary. Although not written as an AutoCAD tutor, the book will be a useful introduction to good CAD practice. Part of the Revision and Self-Assessment series, 'Engineering Drawing From First Principles' is ideal for the student working alone. More than just a series of tests, the book helps assess current understanding, diagnose areas of weakness and directs the student to further help and guidance. This is a self-contained text, but it will also work well in conjunction with the highly successful 'Manual of Engineering Drawing', by Simmons and Maguire. Can be used with AutoCAD or AutoCAD LT Provides typical exam questions and carefully described worked solutions Allows students to work alone

In the Cape Breton Fiddle, Glenn Graham, an accomplished Cape Breton fiddler, explores the roots of the Cape Breton fiddling tradition, an art firmly rooted in Scottish Gaelic cultural forms, through an evolution that has made Cape Breton an icon of creativity recognized throughout the world.
