~~Hand Loading In the U.S .284 Winchester brass is readily available for hand loading. Outside of the U.S, Winchester brand brass can be ordered by importers however, it can be easier to obtain and re-form Norma or Lapua 6.5-284 brass - ironic considering that the original cartridge is exceptionally well suited to long range competitive shooting.~~

~~.284 Winchester--BallisticStudies.com~~

~~The cost of reloading the .284 Win is roughly \$.07 more per round than that of the 6.5-284. The .284 uses a grain or two more powder than the 6.5-284, and 7mm bullets cost about \$6.00 more per 100-count box. However, to truly compare the cost of shooting the two calibers you must figure in barrel life. My 6.5-284 barrel went south at 900 rounds.~~

~~Record Setting .284 Win F-Classer~~

~~By Pete Petros-Lead Reloading Technician, Sinclair International. After hearing about great results that shooters have been having with the original .284 Winchester I decided to re-barrel and chamber my factory Savage F-Class 6.5mm X .284 after 1200 rounds of ¼ MOA accuracy had opened up a bit.~~

~~Back to the "Original", The .284 Winchester--Part 2 | Top ...~~

~~The upshot is the 284 Win. has the potential to perform like a 280 Rem. in a short-action rifle. I say potential because few short action rifles are chambered for the 284 Win. and even fewer manufacturers load ammo for it. Winchester currently offers a 150-grain Power Point load rated 2,860 fps.~~

~~Reloader 17 load data for 284 Winchester Hi Team, I have a 284 Winchester arriving any day now. I've been pointed in the direction of Reloader 17 being the most optimum powder. I'll be shooting Hornady 162 ELD-M projectiles. I don't feel like spending the \$75.00 or so for the Hornady reloading book.~~

~~World F-Class Championship Silver Medalist Talks about .284 Winchester and H4350~~

~~As far as I know, aside from Winchester, no other major company has ever loaded factory ammunition for the .284. According to the second edition of the Sierra Reloading Manual their sleek 140 grain boat-tail spitzer bullet can be driven to a MV of 2400 fps by 46.3 grains of IMR 4350 powder, and 2900 fps by 54.9 grains of IMR 4350.~~

Anyone have any 284 Win pet loads they wouldn't mind sharing? I'm picking one up from a gunsmith friend of mine this week. I have quite a few different Nosler, Hornady, and Speer bullets to work with. Any help is appreciated. Thanks, bludog

~~284 Win Pet Loads? - 24hourcampfire~~

19" barreled 284 Winchester Striker at 1278 yards. The aiming point is a white spot just to the right of the vertical crack in the rock. The aiming point is roughly 5-5.5".

~~284 Winchester @ 1278 yards~~

Tuning Loads for the .284 Win Improved Cartridges The 284 KMR IMP seems to have two nodes, one around 2820 fps and other at 2940 fps. My match load clocks at 2935 fps with single-digit ES. Note -I selected that load based on accuracy, NOT raw speed. A lot of novice (or hard-headed) shooters make the mistake to push their cartridges to the max, and disregard more accurate loads at lower velocity.

~~.284 Winchester « Daily Bulletin~~

Factory loaded ammunition can be purchased through Olin for the .284 Winchester and has fast kill rates on medium sized game upwards to 225 yards before a noticeable wound penetration drop-off occurs. Hand loading brass can achieve slightly faster speeds than factory loads including approximately 3,000 ft/s (140 gr) and 2,900 ft/s (150 gr).
