The recent fascination in Finnish folklore studies with popular thought and the values and emotions encoded in oral tradition began with the realisation that the vast collections of the Finnish folklore archives still have much to offer the modern-day researcher. These archive materials were not only collected by scholars, but also by the ordinary rural populace interested in their own traditions, by performers and their audiences. With its myriad voices, this body of source material thus provides new avenues for the researcher seeking to penetrate popular thought. What does oral tradition tell us about the way its performers think and feel? What sorts of beliefs and ideas are transmitted in traditional songs and narratives? Perspectives from the study of mentalities and cultural cognition research provide a framework for investigating these issues. This collection of articles works from the premise that the cultural models which shape mentalities give rise to manifest expressions of culture, including folklore. These models also become embedded in the representations appearing in folklore, and are handed down from one generation to the next. The topics of the book cover age-old myths and world views, concepts of witchcraft and the Devil stretching back to the Middle Ages, and the values and collective emotions of Finnish and Hungarian agrarian communities.

How can anthropology improve our understanding of the interrelationship between nature and culture?- What can anthropology contribute to practical debates which depend on particular definitions of nature, such as that concerning sustainable development?Humankind has evolved over several million years by living in and utilizing 'nature' and by assimilating it into 'culture'. Indeed, the technological and

cultural advancement of the species has been widely acknowledged to rest upon human domination and control of nature. Yet, by the 1960s, the idea of culture in confrontation with nature was being challenged by science, philosophy and the environmental movement. Anthropology is increasingly concerned with such issues as they become more urgent for humankind as a whole. This important book reviews the current state of the concepts of 'nature' we use, both as scientific devices and ideological constructs, and is organised around three themes:- nature as a cultural construction;- the cultural management of the environment; and- relations between plants, animals and humans.

Allgemeine Theorie der schonen Kunste is an unchanged, high-quality reprint of the original edition of 1793. Hansebooks newly publishes these books and contributes to the preservation of literature which has become rare and historical knowledge for the future."

Praise for *The Body Snatcher*: "An excellent and atypical book, a fantastic adventure."—The Huffington Post "An explosive mixture of dread, greed and corruption. You won't put it down until you've read the very last page."—Cosmopolitan This tightly plotted novel by Brazil's best-selling crime author is a tale of drug dealing gone wrong, police corruption, and macabre blackmail, set in a heat-soaked town in the vast untamed Brazilian lowlands bordering Bolivia. One bright Sunday, alone on the banks of the Paraguay River, the narrator witnesses the fatal crash of a small plane. He finds a kilo of cocaine in the dead pilot's backpack and pockets it along with the pilot's expensive watch. Thus begins the protagonist's long slide into corruption. When police locate the crash site, the pilot's body is missing and a large-scale search ensues. Our hero, now involved in a busted cocaine deal, ends up owing a Bolivian drug gang so much money that blackmailing the wealthy family of the dead pilot seems to be the only way out. When the family secretly agrees to pay serious money to recover the body of their son, our hero, who does not have the pilot's body, decides someone else's will do. . . . Or so he thinks. Patricia Melo is an author and playwright born in Sao Paulo (1962). Her novels *Lost World*, *The Killer*, *In Praise of Lies*, and *Inferno* have been published in English to rave reviews. Her works have also been translated into Italian, Spanish, and Dutch.

First Published in 1996. Routledge is an imprint of Taylor & Francis, an informa company.

"The satisfying conclusion to Gardam's *Old Filth* trilogy offers exquisite prose, wry humor, and keen insights into aging and death" (*The New Yorker*). While *Old Filth* introduced readers to Sir Edward Feathers, his dreadful childhood, and his decades-long marriage, *The Man in the Wooden Hat* was his wife Betty's story. *Last Friends* is Terence Veneering's turn. His beginnings were not those of the usual establishment grandee. *Filth's* hated rival in court and in love is the son of a Russian acrobat marooned in the English midlands and a local girl. He escapes the war and later emerges in the Far East as a man of panache and fame. The Bar treats his success with suspicion: Where did this handsome, brilliant Slav come from? This exquisite story of Veneering, *Filth*, and their circle tells a bittersweet tale of friendship and grace and of the disappointments and consolations of age. They are all, finally, each other's last friend as this magnificent series ends with the deep and abiding satisfaction that only great literature provides. "[Gardam's] prose sparkles with wit, compassion and humor. She keeps us entertained, and she keeps us guessing. Be thankful for her books. Be thankful for this trilogy, which is ultimately an elegy, created with deep affection." —The Washington Post "Restores us to an era rich in spectacle and bristling with insinuation and intrigue. Vivid, spacious, superbly witty, and refreshingly brisk . . . the story (and the author) will endure." —The Boston Globe "All three Gardam books are beautifully written but it's a pleasure to note that *Last Friends* is the most enjoyable, the funniest and the most touching." —National Post

Following on from his first two books, Rhodes completes his edition of Thucydides' books on the Archidamian War, providing an Introduction Thucydides' history and on the Peloponnesian War, Greek text with selective critical apparatus and facing translation, and a commentary which should be useful both to specialists and to readers with little . . .
