Take a look at our engine oil guide for facts about motor oil, and learn how to keep your car's performance and efficiency at its absolute best.

Engine Oil Guide - Get all the Oil Facts | Pennzoil

SAE labels for multi-grade engine oil has two viscosity markings for example: 5W-30, 5W-40 or 10W-40. The SAE classification shows the viscosity of the oil, not quality of motor oil itself. When it comes to such an important fluid, you shouldn't economize on its quality. The difference in price and quality of engine oil types is mostly because of specifications and additives.

The Best Motor oil guide - types and specifications

Mineral-based oils or conventional motor oil can be cheap, but it doesn't really offer your engine that much, plus you have to change oil very often. As such, a good compromise would be a synthetic blend or what many would refer to as the semi-synthetic. This type of motor oil is a combination of conventional motor oil and synthetic oil.
