PC-DMIS mirrors the CAD drawing in the specified axis and displays the image in the Graphic Display window. Mirrored Elements in CAD Assemblies . If you open the CAD Assembly dialog box, you can see that your original imported image name has the number 1 appended to its name. Any CAD transformation that

Access Free Pc Dmis Cad Manual

creates a new instance of the same CAD file (such as a mirror operation) is then incremented to have a unique number.

Transforming a CAD Model

To use this dialog box: From the Feature types area, mark the CAD element feature types you want to delete. From the Graphic Display window, press Ctrl + Click (or box-select) to highlight the CAD elements you want to remove. Click Delete or press the Delete key to preview the deletion.
