A Photographic Atlas for the Biology Laboratory, Seventh Edition by Byron J. Adams and John L. Crawley is a full-color photographic atlas that provides a balanced visual representation of the diversity of biological organisms. It is designed to accompany any biology textbook or laboratory manual.

Depicts structures in the same colours as they would appear in real life. Covers animals and plants

A Photographic Atlas of Marine Biology is a full-color supplement that provides photographs of preserved specimens and images taken at various aquaria to provide coverage of organisms in the world's oceans. It is designed to accompany any marine biology text or laboratory manual.

A Photographic Atlas of Histology, 2e by Michael J. Leboffe is designed for use in undergraduate histology and human anatomy courses. It serves as a convenient visual reference and is of particular value to students in a laboratory setting. Commercially available microscope slides are used to photograph, so images represent the quality and diversity of what a student is actually likely to encounter in the laboratory; pathological specimens have not been used.

This book is divided into two primary sections. The first covers plant anatomy and the second covers plant taxonomy.

The Photo Atlas for General Biology is an excellent source of supplemental information for laboratory and lectures in biology, botany and zoology courses. The atlas provides insight into living organisms that abound all around us but we seldom have the opportunity to study on a gross or microscopic level.

Where To Download Photographic Atlas For The Biology Laboratory

New and updated images have been incorporated into this latest edition.

A Dissection Guide & Atlas to the Fetal Pig, 3rd Ed. by David G. Smith and Michael P. Schenk is designed to provide students with a comprehensive introduction to the anatomy of the fetal pig. This full-color dissection guide and atlas gives the student carefully worded directions for learning basic mammalian anatomy through the use of a fetal pig specimen.
