In 1916, the physicist Oliver Lodge published *Raymond or Life and Death*, a best-selling account of messages transmitted through a medium that Lodge believed came from his son Raymond, a recent casualty of World War I. The narrative appealed to many readers who had lost loved ones during the war, although its apparently fanciful descriptions of the afterlife state made it a subject of controversy.

The book *Raymond or Life and Death* is the most controversial book written by Sir Oliver Lodge. After his son, Raymond, was killed in World War I in 1915, he visited several mediums and wrote about the experience in a number of books, including this one. The book documents the séances that he and his wife had
