AS A CYCLIST. - Always use any
available bike lanes if they allow you to
ride alongside the main flow of traffic,
rather than directly in it. - Stay as close to
the left side of the road as possible, and
avoid drifting towards the centre of the
lane. Always ride in the direction of traffic
flow, and never against it.

One of these is the road and traffic engineering profession. Various studies have indicated that perhaps 40% or more of accident reductions which could reasonably be expected on the road system can accrue from the provision of safer roads. The following seventeen chapters provide a structure for this book's discussion of road safety engineering: 1. The Nature and Dimensions of the Road Safety Problem; 2.
