Treatment

One cause of snoring is when the tissues in your airways relax and narrows your airway.

Airflow is constricted, causing a vibrating sound. Snores can vary in volume depending on how restricted air...

Snoring: Causes, Diagnosis and Treatments

Read Free Snoring Causes Diagnosis And Treatment

Snoring can be caused by a number of factors, such as the anatomy of your mouth and sinuses, alcohol consumption, allergies, a cold, and your weight. When you doze off and progress from a light sleep to a deep sleep, the muscles in the roof of your mouth (soft palate), tongue and throat relax.
