This therapy typically focuses on families with a child or adolescent with complex emotional or behavioral problems. The child and their parents may attend 8–30 weekly sessions together.

Benefits of family counseling and how it works

The family and therapy The term family therapy can be misleading. 'Family' is open to many interpretations, if not attacks, because it is frequently read as implying a two-parent, heterosexual couple with two children, with the woman primarily the 'homemaker' and the man the 'breadwinner', with occasional backup from the grandparents.
