"[A] highly entertaining literary thriller about fine art and foolish choices." —Parade
"[A] nimble mystery." —The New York Times Book Review
"Gripping." —O, The Oprah Magazine
Almost twenty-five years after the infamous art heist at the Isabella Stewart Gardner Museum—still the largest unsolved art theft in history—one of the stolen Degas paintings is delivered to the Boston studio of a young artist. Claire Roth has entered into a Faustian bargain with a powerful gallery owner by agreeing to forge the Degas in exchange for a one-woman show in his renowned gallery. But as she begins her work, she starts to suspect that this long-missing masterpiece—the very one that had been hanging at the Gardner for one hundred years—may itself be a forgery. The Art Forger is a thrilling novel about seeing—and not seeing—the secrets that lie beneath the canvas.

An exciting new novel, by the author of The Story of My Disappearance and Archangel. At the turn of World War II, David Halifax is a young American painter who receives a scholarship to come to Paris and work under the tutelage of the mysterious and brilliant Russian painter, Alexander Pankratov. Getting more than he bargained for, Halifax is quickly subjected to Pankratov's rigid will, and beguiled by the quiet, nude model who poses before them. But Paris is also a city that is holding its breath. The Nazi forces are slowly penetrating the Maginot Line, and the once-indomitable city is now expecting the worst. Beneath Paris' blanket of fear and eerie calm, David Halifax realizes the true purpose of his visit: Pankratov is to train him in duplicating the masterworks of the Paris museums, and with the aid of a wily art dealer, barter the fakes to Hitler's legion of art dealers. What develops is a cat and mouse game through Paris' silent streets, in the tunnels beneath its museums, and eventually into the scorched countryside of Normandy. In David and Pankratov's frantic race to complete the uncompletable, both are forced to confront the terrible sacrifices one must finally make for art; a sacrifice of identity, and perhaps of the soul. In The Forger by Paul Watkins.

The author of the acclaimed suspense novel The Forger returns to the dangerously rarified world of literary forgery in this tense sequel. When a scream shatters the summer night outside their country house in the Hudson Valley, reformed literary forger Will and his wife Meghan find their daughter Maisie shaken and bloodied, holding a parcel her attacker demanded she present to her father. Inside is a literary rarity the likes of which few have ever handled, and a letter laying out impossible demands regarding its future. After twenty years on the straight and narrow, Will finds himself ensnared in a plot to counterfeit the rarest book in American literature: Edgar Allan Poe's Tamerlane, of which only a dozen copies are known to exist. Facing threats from his former nemesis Henry Slader, Will must rely on the artistic skills of his older daughter Nicole to help create a flawless forgery of this Holy Grail of American letters. Part mystery, part case study of the shadowy side of the book trade, and part homage to the writer who invented the detective tale, The Forger's Daughter draws readers into the diabolically clever—and, for some, inescapable—world of literary forgery.

A brutal murder incites paranoia in the rare-book world in a "brilliantly written . . . lethally enthralling" novel of literary suspense (Joyce Carol Oates). The bibliophile community is stunned when a reclusive collector, Adam Diehl, is found on the floor of his Montauk home: hands severed, surrounded by valuable inscribed books and original manuscripts that have been vandalized beyond repair. Adam's sister, Meghan, and her lover, Will—a convicted if unrepentant literary forger—struggle to come to terms with the incomprehensible murder. But when Will begins receiving threatening handwritten letters, seemingly penned by Henry James and A. Conan Doyle, he's drawn into a web of deception with which he's unnervingly familiar. Yet this time, it's putting his own life in jeopardy. "From its provocative opening line . . . [The Forgers] takes on a knowing, nourish tone, like a crime movie by the Coen brothers" (The Miami Herald), while "quite skillfully, paying homage to one of Agatha Christie's most famous whodunits. Yet even then, [Morrow] offers a few twists of his own and will keep all but the most astute mystery aficionado guessing . . . until the end" (The Washington Post).

In Nazi Germany, 20-year-old graphic artist Cioma Schönhaus found a unique outlet for his talent: he forged documents for people fleeing the Reich, ultimately helping to save hundreds of lives. Yet, even as the Gestapo posted his photo in public, he lived a daringly adventurous life, replete with fine restaurants and beautiful women, all the while managing to elude the Nazis. Breathtakingly bold, Schönhaus talked his way out of an arrest, defened Jewish diners being harassed by the police, and ultimately fled Germany by bicycling to Switzerland. Schönhaus's story-his courageous exploits that saved so many, as many others around him were deported, one by one, to the concentration camps-is an astonishing tale of wartime heroism and survival.

A tautly paced investigation of one the 20th century's most audacious art frauds, which generated hundreds of forgeries-many of them still hanging in prominent museums and private collections today Provenance is the extraordinary narrative of one of the most far-reaching and elaborate deceptions in art history. Investigative reporters Laney Salisbury and Aly Sujo brilliantly recount the tale of a great con man and unforgettable villain, John Drewe, and his sometimes unwitting accomplices. Chief among those was the struggling artist John Myatt, a vulnerable single father who was manipulated by Drewe into becoming a prolific art forger. Once Myatt had painted the pieces, the real fraud began. Drewe managed to infiltrate the archives of the upper echelons of the British art world in order to fake the provenance of Myatt's forged pieces, hoping to irrevocably legitimize the fakes while effectively rewriting art history. The story stretches from London to Paris to New York, from tony Manhattan art galleries to the esteemed Giacometti and Dubuffet associations, to the archives at the Tate Gallery. This enormous swindle resulted in the introduction of at least two hundred forged paintings, some of them breathtakingly good and most of them selling for hundreds of thousands of dollars. Many of these fakes are still out in the world, considered genuine and hung prominently in private houses, large galleries, and prestigious museums. And the sacred archives, undermined by John Drewe, remain tainted to this day. Provenance reads like a well-plotted thriller, filled with unforgettable characters and told at a breakneck pace. But this is most certainly not fiction; Provenance is the meticulously researched and captivating account of one of the greatest cons in the history of art forgery.

"Written in prose so clear that we absorb its images as if by mind meld. "The Last Painting" is gorgeous storytelling: wry, playful, and utterly alive, with an almost tactile awareness of the emotional contours of the human heart. Vividly detailed, acutely sensitive to stratifications of gender and class, it's fiction that keeps you up at night — first because you're barreling through the book, then because you've slowed your pace to a crawl, savoring the suspense." —Boston Globe
A New York Times Bestseller
A New York Times Book Review Editor's Choice
A RARE SEVENTEENTH-CENTURY PAINTING LINKS THREE LIVES, ON THREE CONTINENTS, OVER THREE CENTURIES IN THE LAST PAINTING OF SARA DE VOS, AN EXHILARATING NEW NOVEL FROM DOMINIC SMITH. Amsterdam, 1631: Sara de Vos becomes the first woman to be admitted as a master painter to the city's Guild of St. Luke. Though women do not paint landscapes (they are generally restricted to indoor subjects), a wintry outdoor scene haunts Sara: She cannot shake the image of a young girl from a nearby village, standing alone beside a silver birch at dusk, staring out at a group of skaters on the frozen river below. Defying the expectations of her time, she decides to paint it. New York City, 1957: The only known surviving work of Sara de Vos, At the Edge of a Wood, hangs in the bedroom of a wealthy Manhattan lawyer, Marty de Groot, a descendant of the original owner. It is a beautiful but comfortless landscape. The lawyer's marriage is prominent but comfortless, too. When a struggling art history grad student, Ellie Shipley, agrees to forge the painting for a dubious art dealer, she finds herself entangled with its owner in ways no one could predict. Sydney, 2000: Now a celebrated art historian and curator, Ellie Shipley is mounting an exhibition in her field of specialization: female painters of the Dutch Golden Age. When it becomes apparent that both the original At the Edge of a Wood and her forgery are en route to her museum, the life she has carefully constructed threatens to unravel entirely and irrevocably.

Forged notes have started to appear everywhere. Peter Clifton is rich, but no one is quite certain how he acquired his money - not even his new wife, the beautiful Jane Leith. One night someone puts a ladder to Jane's window and enters her room. It is not her jewels they are after.

The astonishing true story of America's most accomplished art forger: a kid from New Jersey who became a master, fooling experts and eluding the FBI for thirty years. Ten years ago, an FBI investigation in conjunction with the U.S. Attorney's Office in the Southern District of New York was about to expose a scandal in the art world that would have been front-page news in New York and London. After a trail of fake paintings of astonishing quality led federal agents to art dealers, renowned experts, and the major auction houses, the investigation inexplicably ended, despite an abundance of evidence collected. The case was closed and the FBI file was marked "exempt from public disclosure." Now that the statute of limitations on these crimes has expired and the case appears hermetically sealed shut by the FBI, this book, Caveat Emptor, is Ken Perenyi's confession. It is the story, in detail, of how he pulled it all off. Glamorous stories of art-world scandal have always captured the public imagination. However, not since Clifford Irving's 1969 bestselling Fake has there been a story at all like this one. Caveat Emptor is unique in that it is the first and only book by and about America's first and only great art forger. And unlike other forgers, Perenyi produced no paper trail, no fake provenance whatsoever; he let the paintings speak for themselves. And that they did, routinely mesmerizing the experts in mere seconds. In the tradition of Frank Abagnale's Catch Me If You Can, and certain to be a bombshell for the major international auction houses and galleries, here is the story of America's greatest art forger.

When Interpol's covert behind-the-scenes Elite Crimes Unit looks for new talent, they recruit someone who knows all the tricks—and sometimes a troublemaker is exactly who's needed for the job... Olivia Lawson's bosses at Scotland Yard don't take her work very seriously. Art and antiquities? Bor-ing! But her latest investigation, at London's world-renowned Tate, is turning out to be far more explosive than anyone expected. In fact, the vandalized, booby-trapped painting hanging on the gallery wall would have blown her off her feet if it wasn't for the tall, dark-haired stranger who tackled her at the last second—a stranger as finely sculpted as any masterpiece in the museum. Ethan Maxwell is working this case for the Elite Crimes Unit because it was a choice between that and lockup. A (barely) reformed art forger, he's got the expertise to lead Olivia through a dangerous manhunt. But the crime may have a more personal connection to him—and the all-too-real feelings he's developing toward Olivia could pull her into the line of fire too. . . . "Hauf delivers excitement, danger, and romance in a way only she can!" —#1 New York Times bestselling author Sherrilyn Kenyon
