The Politically Incorrect Guide to American History makes it quite clear that liberal professors have misinformed our children for generations. Professor Thomas E. Woods, Jr. takes on the most controversial moments of American history and exposes how history books are merely a series of clichés drafted by academics who are heavily biased against God, democracy, patriotism, capitalism and most American family values.

The Politically Incorrect Guide is a book series by Regnery Publishing presenting conservative viewpoints that are politically incorrect on various topics. Each book is written by a different author and generally presents a conservative or libertarian viewpoint on the subject at hand. The series was the brainchild of Jeffrey Rubin, then editor of the Conservative Book Club, Regnery's sister company within Washington, DC-based Eagle Publishing.

The Incorrect Guide to the United States I can't you how much I would love to get my credit back for both the book and the time I spent listening to it! It's not "Politically" incorrect, it's just someone's plain old Incorrect Fantasy! You will not learn anything about the bible from this book.

The Politically Incorrect Guide to the Bible by Robert J ...

The Politically Incorrect Guide to the Civil War by H. W. Crocker III - published by Regnery Publishing, 2008 A Book Review by Father John McCloskey An oft-repeated truism is "History is written by the victors."

A hunter defends the ethical aspects of hunting, discussing why hunting is necessary, how it works to conserve certain groups of animals, why environmentalists support hunting, and how hunting is statistically less dangerous than sports.

The Politically Incorrect Guide to the Civil War is a joyful, myth-busting, rebel yell that shatters today ' s Leftist and demeaning stereotypes about the South and the Civil War.

An irreverent look at capitalism that exposes common fallacies and offers simple explanations of complex issues related to capitalism and its role in the world's economy.

Everything you should know--but PC professors won't teach--about Western heritage. Western civilization is the envy of the globe. It has given to the world universally accepted understandings of human rights (rooted in Judeo-Christian principles), created standards for art, music, and literature that have never been equaled, and originated political and social systems that have spread all across the planet. Political correctness now obscures these and other truths about Western civilization. Leftists and Islamic jihadists find common cause in assailing Western "colonialism," "imperialism," and "racism" as its defining characteristics. Guilt-ridden Western leaders and public figures speak of their cultural patrimony in disparaging terms they would never dare to use about a non-Western culture. And in universities, "multicultural"-minded professors flatter students into believing they have nothing really to learn from Sophocles or Shakespeare. But now,

## Read Book The Politically Incorrect Guide To The Consution

Professor Anthony Esolen--one of the team-teachers of Providence College's esteemed Development of Western Civilization Core Curriculum--has risen to the West's defense. The Politically Incorrect Guide(TM) to Western Civilization takes on the prevailing liberal assumptions that make Western civilization the universal whipping boy for today's global problems - and introduces you to the significant events, individuals, nations, ideas, and artistic achievements that make Western civilization the greatest the world has ever known. Today, defending the West has become an urgent imperative: if we don't value what we have and what we have inherited, we will surely lose it. The Politically Incorrect Guide(tm) to Western Civilization is an essential sourcebook for that defense.

The bestselling Politically Incorrect Guide to American History reveals facts that you won't be--or never were--taught in school, tells you about the "Books You're Not Supposed to Read," and gives you all the information you need to battle and confound left-wing professors, neighbors, and friends.

"If the globe is warming, is mankind responsible, or is the sun?" Such a statement does not appear out of place in Bethell's entertaining account of how modern science is politically motivated and in desperate need of oversight. Bethell writes in a compulsively readable style, and although he provides legitimate insight into the potential benefits of nuclear power and hormesis, some readers will be turned off when he attempts to disprove global warming and especially evolution. Throughout the book, Bethell makes questionable claims about subjects as varied as AIDS ("careful U.S. studies had already shown that at least a thousand sexual contacts are needed to achieve heterosexual transmission of the virus") and extinction ("It is not possible definitely to attribute any given extinction to human activity"), and backs up his arguments with references to the music magazine SPIN and thriller-writer Michael Crichton. Ironically, Bethell ends up proving his own premise by producing a highly politicized account of how liberal intellectuals and unchecked government agencies have created a "white-coated priesthood" whose lust for grant money has driven them to produce fearsome (but in Bethell's view, false) tales of ozone destruction and AIDS pandemics. In the end, this book is unlikely to sway readers who aren't already in Bethell's ideological camp, as any points worthy of discussion get lost in the glut of unsourced claims that populate this latest installment of "The Politically Incorrect Guide" series.

The Constitution of the United States created a representative republic marked by federalism and the separation of powers. Yet numerous federal judges--led by the Supreme Court--have used the Constitution as a blank check to substitute their own views on hot-button issues such as abortion, capital punishment, and samesex marriage for perfectly constitutional laws enacted by We the People through our elected representatives. Now, The Politically Incorrect Guide to the Constitution shows that there is very little relationship between the Constitution as ratified by the thirteen original states more than two centuries ago and the "constitutional law" imposed upon us since then. Instead of the system of state-level decision makers and elected officials the Constitution was intended to create, judges have given us a highly centralized system in which bureaucrats and appointed--not elected--officials make most of the important policies. In The Politically Incorrect Guide to the Constitution, Professor Kevin Gutzman explains how the Constitution: Was understood by the founders who wrote it and the people who ratified it. Follows the Supreme Court as it uses the fig leaf of the Constitution to cover its naked usurpation of the rights and powers the Constitution explicitly reserves to the states and to the people. Slid from the Constitution's republican federal government, with its very limited powers, to an unrepublican "judgeocracy" with limitless powers. How the Fourteenth Amendment has

## Read Book The Politically Incorrect Guide To The Consution

been twisted to use the Bill of Rights as a check on state power instead of on federal power, as originally intended. The radical inconsistency between "constitutional law" and the rule of law. Contends that the judges who receive the most attention in history books are celebrated for acting against the Constitution rather than for it. As Professor Gutzman shows, constitutional law is supposed to apply the Constitution's plain meaning to prevent judges, presidents, and congresses from overstepping their authority. If we want to return to the founding fathers' vision of the Republic, if we want the Constitution enforced in the way it was explained to the people at the time of its ratification, then we have to overcome the "received wisdom" about what constitutional law is. The Politically Incorrect Guide to the Constitution is an important step in that direction.

Argues that such figures as George Washington, Thomas Jefferson, and Ben Franklin laid the foundations of American civil liberty and had a better understanding of problems facing Americans today than the current U.S. Congress.

Citing declining coverage of classic English and American literature in today's schools, a "politically incorrect" primer challenges popular misconceptions while introducing the works of such core masters as Shakespeare, Faulkner, and Austen, in a volume that is complemented by a syllabus and a self-study guide. Original.

Profiles heroic figures from the beginning of the United States' history to the present whose contributions to society the author asserts have been overshadowed by the actions of those the liberal media holds in high esteem.
