seller by Republican former U.S. Congressman Ron Paul.
The work was published on April 30, 2008 by Grand Central
Publishing. According to Paul, the book is based on written
notes during his 2008 presidential campaign. Reception

The Revolution: A Manifesto - Wikipedia

In THE REVOLUTION, Texas congressman and presidential
candidate Ron Paul has exposed the core truths behind
everything threatening America, from the real reasons behind
the collapse of the dollar and the looming financial crisis, to
terrorism and the loss of our precious civil liberties. In this
book, Ron Paul provides answers to questions that few even
dare to ask.

The Revolution: A Manifesto | Mises Institute

It was protection for the people against a government that
would exist only to serve itself, defeating the sole purpose for
its creation. That is not the country that the United States was
in 2008 when Ron Paul wrote The Revolution: A Manifesto. It
isn't the country in 2012 either.

The Revolution: A Manifesto by Ron Paul

THE REVOLUTION: A MANIFESTO Ron Paul Grand Central
Publishing, 2008, xi + 173 pgs. In his historic campaign for
president, Ron Paul again and again held up the Constitution
as a benchmark to judge the policies of the American
government. For this, some libertarians criticized him. Was
Paul not guilty of "constitution worship"?

In *Liberty Defined*, congressman and #1 New York Times bestselling author Ron Paul returns with his most provocative, comprehensive, and compelling arguments for personal freedom to date. The term "Liberty" is so commonly used in our country that it has become a mere cliché. But do we know what it means? What it promises? How it factors into our daily lives? And most importantly, can we recognize tyranny when it is sold to us disguised as a form of liberty? Dr. Paul writes that to believe in liberty is not to believe in any particular social and economic outcome. It is to trust in the spontaneous order that emerges when the state does not intervene in human volition and human cooperation. It permits people to work out their problems for themselves, build lives for themselves, take risks and accept responsibility for the results, and make their own decisions. It is the seed of America. This is a comprehensive guide to Dr. Paul's position on fifty of the most important issues of our times, from Abortion to Zionism. Accessible, easy to digest, and fearless in its discussion of controversial topics, *LIBERTY DEFINED* sheds new light on a word that is losing its shape.

A provocative and controversial treatise that argues we cannot actually fix the broken economy without discussing the 800-lb gorilla in the room: the Federal Reserve. Most people think of the Fed as an indispensable institution without which the country's economy could not properly function. But in End the Fed, Ron Paul draws on American history, economics, and fascinating stories from his own long political life to argue that the Fed is both corrupt and unconstitutional. It is inflating currency today at nearly a Weimar or Zimbabwe level, a practice that threatens to put us into an inflationary depression where \$100 bills are worthless. What most people don't realize is that the Fed -- created by the Morgans and Rockefellers at a private club off the coast of Georgia -- is actually working against their own personal interests. Congressman Paul's urgent appeal to all citizens and officials tells us where we went wrong and what we need to do fix

America's economic policy for future generations.

Twelve-term Texas Congressman, Presidential candidate, and #1 New York Times bestselling author Ron Paul returns with a highly provocative treatise about how we need to fundamentally change the way we think about America's broken education system in order to fix it. Whether or not you have children, you know that education is vital to the prosperity and future of our society. Yet our current system simply doesn't work. Parents feel increasingly powerless, and nearly half of Americans give our schools a grade of "C". Now, in his new book, Ron Paul attacks the problem head-on and provides a focused solution that centers on strong support for home schooling and the application of free market principles to the American education system. Examining the history of education in this country, Dr. Paul identifies where we've gone wrong, what we can do about it, and how we can change the way we think about education in order to provide a brighter future for Americans.

Revised Pocket Edition! The second edition of Gold, Peace, and Prosperity is just 4.25" x .4" x 7 " in size. Truly portable and available at volume discounts. The book has been newly type set and all images updated. This is the perfect handout for education of the gold standard. The book is a quick read that covers the whole history of monetary destruction, providing information that most people have never heard or thought about. In that sense, it is the perfect conversation starter, and it could inspire more reading and activism for sound money. We produced this beautiful edition for the broadest distribution - an effort to popularize and universalize the cause of sound money. Author Ron Paul has been the leading champion of sound money in the Congress. He explains why sound money has meant the gold standard. The

Read Online The Revolution A Manifesto Ron Paul

monograph is written in the clearest possible terms with the goal of explaining the basics of paper money and its effects of inflation, business cycles, and government growth. He maps out a plan to bring about a dollar that is as good as gold, one that would be protected against manipulation by government and central bankers. Part of that strategy is the minting of a new gold one but the more far-reaching plan involves a redefinition of the dollar and complete monetary competition. This monograph first appeared in 1981, and it has been in wide distribution ever since. But we've never had an edition this beautiful, this affordable, and this handy. Second Edition Foreword by Henry Hazlitt Preface by Murray Rothbard.

Presidential candidate and longtime representative Ron Paul of Texas is a true enigma in American politics: at once a libertarian who believes in outlawing abortion and halting illegal immigration, and a traditional conservative who fervently opposes the drug war, the PATRIOT Act, and America's interventions in the Middle East. In Ron Paul's rEVOLution, Brian Doherty, a senior editor at Reason magazine and Reason.com, documents the meteoric rise of Paul from relative obscurity to national prominence, and examines the fanatically devoted political movement that has arisen around him. Based on original reporting, Ron Paul's rEVOLution is a remarkable portrait of an extraordinary man who has become a hero to a rising generation of cross-partisan young activists.
